

Strand D: Functionality

IB Computer Science

Internal Assessment

Marks

- functions, as evidenced in the video
- can be expanded and modified by future users as evidenced in the design and development documentation.

Marks	Description
0	The response does not reach a standard described by the descriptors below.
1-2	The video shows that the product functions partially. Some expansion and modification of the product is possible but difficult.
3-4	The video shows that the product functions well. Some expansion and modifications of the product are straightforward.

Brief

What does D include?

- A video! Either screen capture or recorded by a separate device.
 - Demonstrating the program working
 - Explaining its features

Word count: 0 – *no writing is accepted.*

Video

- **2-7 minutes in length.**
- Must show the key features and functionality of your program.
- Write a **script** – be sure to highlight:
 - **Success criteria / test plan**
 - How the program can be **extended**
- Should include audible narration (you speaking) to explain what is happening.

Software suggestions:

- Camtasia
- Cam studio
- Screencast-o-matic

Important to note

- Normally, moderators just default to watching the video and reading the documentation. If they don't understand or it looks fake, they are more likely to prod around in your actual project....
